

Year 2 Home Learning Mat Year 2 children should complete at least three activities from this mat this term. Please bring anything in as soon as you complete it and we shall display it on our WOW wall. *The children will then have the opportunity to share and talk about their learning on the 18th December should they wish to.*

Year 2 children will also be bringing home weekly maths homework on a Wednesday, stuck in their home learning diary. The children should return this on the following Tuesday. This shall be marked and returned to the children on Wednesday, along with the following piece of maths homework.

Create a picture to show what you like best about winter.
Write a sentence to describe your picture.

Go for a winter walk with a grown-up and take a camera to capture some lovely winter photographs.

Write an acrostic poem for a winter word of your choice.
Suggestions: winter, snowflakes, snow, snowballs, scarf, snowman, polar bear.

Go on a sensory winter walk with a grown-up. What can you see? Hear? Smell?

Build a model sledge for a small toy using household materials. Test your sledge in a small tray of flour. Does it travel smoothly?

Winter

- Daily reading
- Weekly spellings
- Weekly maths homework

Help the birds by scooping out an orange and filling it with bird seed. Hang it from a tree and count how many different birds visit your feeder. Can you find out the name of one of these birds? We would love to see photographs!

If we have snow (let's hope so!), ask Mrs Anderson for a Snow Hunt Checklist and complete.
Or, build a snowman and take photographs to document how it melts.

Create the perfect winter menu. What would be your ideal meal on a cold, wintry day?

Learn some wintry songs and sing them with your family. Can you teach the class a verse from your favourite winter song?

Make a winter snow globe using an empty jar.
Research instructions online or ask Mrs Anderson for an instruction card.
